GRACEFULLY BEAUTIFUL

Montana Lisianthus has a lifelong tradition of introducing beauty to the world. From a careful commitment to the environment to the attentive selection of new varieties, all of our lisianthus are made with care and consideration. We are consistently up at dawn to capture the golden light and select only the best. There is nothing like overlooking the colourful fields illuminated by the soft glow of the rising sun.

This edition we are gazing upon a few new members of the Montana family. Corelli lavender adds a whole new colour to our collection while Sabrina orange every day surprises us with her showy personality. And of course there is the whole new Bohemian series, perfect for a bohemian vintage inspired look.

Each of our lisianthus has her own signature style, whether it is their graceful ruffles or fine detailed hearts. When you glance through the pages, we hope this brochure inspires you to discover them yourself.
